No. 581.
SIR,—

I have the honour to transmit to Your Royal Highness, for the information of your Ministers, a copy of a notice published in the press on the 15th June, containing information for the guidance of persons desiring to record:—

(a.) Debts (including bank balances) due to British subjects from persons residing in enemy countries:

(b.) Other property in enemy countries (including securities) belonging to British subjects.

2. The Foreign Claims Office referred to in the last paragraph of the notice has been set up at the Foreign Office for the purpose of dealing with all claims for the settlement of which no satisfactory machinery has existed hitherto, and which are foreign in the sense that they are claims by British subjects against a foreign Government or by foreign nationals against His Majesty's Government.

I have, etc.,

The Governor-General,
His Royal Highness
The Duke of Connaught and of Strathearn, K.G.,

HOW TO RECORD CLAIMS.

WE are officially informed that it has been arranged that the Public Trustee shall keep a record of:—

(a.) Debts (including bank balances) due to British subjects from persons residing in enemy countries:

(b.) Other property in enemy countries (including securities) belonging to British subjects.

Any person desiring to record such claims or property can obtain the necessary form for that purpose (Form G in the first case and Form H in the second) from the Public Trustee. Applications should be made to the Public Trustee (Trading with the Enemy Department), No. 2 Clement's Inn, Strand, W.C.

It must be clearly understood that the action of the Public Trustee will be confined to entering upon the record claims of which particulars are supplied to him, and that in no way commits His Majesty's Government either to responsibility for the correctness of the claim entered or to taking any action on the conclusion of hostilities or otherwise for the recovery of the debts or property in question.

The Public Trustee will record claims against enemy Governments in respect of public securities of those Governments held by the claimants, but other claims against enemy Governments (e.g., in respect of goods or property requisitioned or seques-

tered) as distinct from claims against enemy subjects should be notified to the Director of the Foreign Claims Office, Foreign Office, S.W.

ORDERS IN COUNCIL.

AT THE EXECUTIVE COUNCIL CHAMBER.

VICTORIA, 7th February, 1917.

PRESENT:

THE HONOURABLE THE ADMINISTRATOR IN COUNCIL.

ON the recommendation of the Honourable the Attorney-General and under the provisions of the "Court Rules of Practice Act" and all other powers thereunto enabling, the Honourable the Administrator of British Columbia, by and with the advice and consent of his Executive Council, doth order as follows:—

1. During the war no probate of a will or letters of administration of the estate of any German, Austro-Hungarian, Turkish, or Bulgarian subject, wherever resident, shall be granted in respect of any assets in this country without the express licence of the Crown acting through the Minister of Finance.

2. In all cases where probate or letters of administration are granted during the war to any person entitled thereto, the grant shall be made upon the condition that no portion of the assets shall be distributed or paid during the war to any beneficiary or creditor who is a German, Austro-Hungarian, Turkish, or Bulgarian subject, wherever resident, or to any one on his behalf, or to or on behalf of any person resident in Germany, Austro-Hungary, Turkey, or Bulgaria, of whatever nationality, without the express licence of the Crown acting through the Minister of Finance; and if any distribution or payment is made contrary to this condition the grant of probate or letters of administration will be forthwith revoked.

3. Any applicant for letters of administration or probate during the war shall furnish evidence to the satisfaction of the Judge to whom application is made that the person in respect to whose estate such probate or letters of administration are applied for was not a German, Austro-Hungarian, Turkish, or Bulgarian subject; or, failing such evidence, shall produce the licence of the Crown that such probate or letters of administration may be granted. Such applicant shall also give such information as the Registrars of the Courts may require in order to ascertain whether any of the assets would in time of peace be distributable or payable to any such subject, and if required shall make a

statutory declaration as to the assets and their disposition in the event of probate or letters of administration being granted.

4. In cases deemed by him proper, the Minister of Finance may sanction the payment of moderate sums out of assets to beneficiaries or creditors who are German, Austro-Hungarian, Turkish, or Bulgarian subjects resident in Canada at the commencement of the war and during the war.

And whereas certain areas of homestead lands which were formerly under cultivation have of late been lying idle, the entrant being on military service and unable to cultivate the land or to make any lease thereof to parties who would be in position to cultivate the same:

Therefore His Excellency the Governor-General in Council, is pleased to empower and doth hereby empower the Minister of the Interior, under the conditions hereinafter set out, to authorize the leasing of unpatented Dominion lands held under entry, with a view to increasing agricultural production, where the entrant is on active military or naval service, or where he is engaged in a work deemed by the Minister to be of national importance, and also where the entrant has died or is insane:

His Excellency in Council, on the recommendation of the Minister of the Interior and under the provisions of the "War Measures Act" of 1914, is further pleased to order that the regulations for the survey, administration, disposal, and management of Dominion lands within the Forty-mile Railway Belt, Province of British Columbia, as established by Order in Council of 17th day of September, 1889, and the amendments thereto, shall be and the same are hereby further amended as follows:—

(b.) Where he is engaged in some work deemed by the Minister to be of national importance:

(c.) Where the entrant is deceased or is insane.

2. Unless written authority therefor is given by the Minister, no lease shall be made under the provisions of these regulations for a period which, in the opinion of the Minister of the Interior exceeds the probable duration of the entrants military service or his employment as aforesaid during the present war, and, in addition, for six months thereafter.

3. Any lease hereunder may be made either by the entrant himself, by his legally constituted attorney or legal representative, or by some person acting for the entrant or his estate who is approved of by the Minister.

4. A lease of unpatented Dominion lands held under entry shall not have any legal force or effect until it has been approved by the Minister, and, when the approval of the Minister is applied for, a triplicate copy of the lease shall be filed with him. The Minister may from time to time prescribe within what time after the execution of a lease it shall be submitted to him for his approval.

5. Where the lease is cancelled, either by mutual agreement or through the non-fulfilment of the conditions thereof, due notice shall be given to the Minister by the lessor, and satisfactory evidence of the cancellation of the lease shall be submitted to the Minister.

6. Where the entry for the land with respect to which any lease may have been made is cancelled for any reason, unless the Minister otherwise orders, all the provisions of such lease, relating to the possession and control of the land and to any permanent improvements effected thereon shall become null and void, and the lessee shall at once vacate the land.

7. The breaking and cultivation of the land held under entry, the erection of permanent improvements, and, in cases where the entrant has been granted the privilege of substituting stock in lieu of cultivation, the maintenance of live stock on such land, by the lessee during the term of the lease, may be granted to the entrant as fulfilment in part or in whole, as the case may be, of the requirements for obtaining letters patent provided that such evidence thereof as is satisfactory to the Minister is duly submitted.

8. Where the lease is approved by the Minister and an application for patent is made thereafter by the entrant before the termination of the lease, the Minister may send to the lessee, at his last known address, a notice informing him that such application has been made.

9. Where in the opinion of the Minister of the Interior any lease approved by him under the provisions of these regulations is subsequently found to be for any reason objectionable, the Minister may, by written order, withdraw his approval, and, upon written notice thereof being sent by registered mail to the last-known addresses of the lessor and lessee, such lease shall thereupon be deemed to be null and void.

RODOLPHE BOUDREAU,

my2 Clerk of the Privy Council.

AT THE GOVERNMENT HOUSE AT OTTAWA.

Monday, the 22nd day of April, 1918.

PRESENT:

HIS EXCELLENCY THE GOVERNOR-
GENERAL IN COUNCIL.

WHEREAS by Order in Council of the 17th March, 1917, it was provided that notwithstanding anything contained in the Regulations for the survey, administration, disposal, and management of Dominion lands within the Forty-mile Railway Belt of the Province of British Columbia as established by Order in Council of the 17th day of September, 1889, or the amendments thereto, during the remainder of the year 1917, the holders of homestead entries, who were employed as farm labourers within the Dominion of Canada, might

be allowed the period of such employment as part of the required period of residence in connection with their respective entries, subject to certain conditions therein laid down:

And whereas the Minister of the Interior states that in his opinion it is desirable to make similar provision for the year 1918:

Therefore His Excellency the Governor-General in Council, on the recommendation of the Minister of the Interior, under and by virtue of the authority conferred upon the Governor in Council by "The War Measures Act of 1914," is pleased to further amend the above Regulations and the same are hereby further amended as follows:—

1. Notwithstanding anything contained in the said Regulations, or the amendments thereto, during the remainder of the year 1918, the holders of homestead entries, who are employed as farm labourers within the Dominion of Canada, may be allowed the period of such employment as part of the required period of residence in connection with their respective entries, subject to the following conditions:—

(a.) The time of employment to be counted as residence duties must be subsequent to the actual date of entry in each case. No settler claiming the benefit of the provisions of the Order in Council of the 17th March, 1917, and of these Regulations shall be given credit in connection with his entry, by reason of his having been engaged in farming operations during the years 1917 and 1918, for more than two terms of residence of six months each, and any settler who is thus allowed the maximum credit in connection with his entry shall be required to show, before his residence duties shall be deemed complete, that he has performed six months' actual residence either on the land held by him under entry, or in the vicinity thereof, in accordance with the provisions of the Regulations:

(b.) The provisions of this Order shall not apply to unperfected proxy entries, nor to any case in which the entrant is engaged in any other employment than actual farm labour:

(c.) As soon as possible after the entrant commenced work it shall be his duty to forward to the Agent of Dominion Lands for the district in which his land is situated, sworn evidence satisfactory to the Minister of the Interior, giving particulars of the land held under entry, the nature of the work performed, where performed, date of commencement, and probable duration:

(d.) Within thirty days after the term of employment has expired, and in any case not later than the 1st of February, 1919, the entrant shall file with the local Agent for the district sworn evidence satisfactory to the Minister of the Interior of the time actually spent on farm work:

(e.) In the event of the cancellation of any entry for default in the performance of the conditions thereof, nothing in this Order in Council shall be held to confer any right or claim upon the former holder of any such entry who, being engaged in farm labour in Canada as aforesaid, has failed, prior to the date of cancellation, to notify the Agents of Dominion Lands for the district of the fact of his being so engaged:

(f.) The entry of any person complying with the foregoing provisions shall not, during the period of his employment on farm labour, be liable to cancellation by reason of his failure to perform the cultivation required in connection with his entry:

(g.) Notwithstanding anything to the contrary in the said Regulations, or any amendments thereto, the cultivation required to earn a patent where the entrant obtains the benefit of this regulation, may be performed in two years instead of three. Settlers claiming the benefit of the similar provision with respect to cultivation, under the Order in Council of the 17th March, 1917, referred to, shall not be entitled to further reduction of the cultivation requirements in connection with their entries by reason of the provisions of this paragraph:

(h.) In any case in which the Minister of the Interior is not satisfied as the *bona fides* of the case, he is authorized to withhold the benefits provided for by the foregoing.

COMPENSATION BOARD.

NOTICE.

WORKMEN'S COMPENSATION BOARD.

PURSUANT to section 51 of the "Workmen's Compensation Act," the Workmen's Compensation Board has adopted the following Safety Rules and Regulations, the same to take effect from the 16th of June, 1918:—

GENERAL.

Transmission Machinery, Shafting, Couplings, Pulleys, Gearing, Belting, and Conveyors.

1. *Emergency Stopping Device.*—(Except with the consent of the Board.) Wherever there is power-driven machinery, a device shall be provided at a convenient point or points, in each department or work-room, whereby either the entire power-supply in that department or room may be cut off as a whole or the one or more lines of shafting used in driving counter-shafting or directly driving machines may be cut off independently.

2. *A Safety Placard* shall be prominently displayed, calling attention to the stopping device and method of operating same.

3. *All Safeguards* shall be well constructed and of the best material for the purpose and maintained in place.

4. *All Manufacturing Plants* shall have signal-cords connected with the bell or whistle, and located in convenient places on each floor.

5. *All Workmen* in a plant shall be taught how to make use of the system of signal by which all the machines can be stopped in case of accident.

6. *Oiling, Cleaning, and Repairs.*—Workmen shall not undertake to oil, inspect, clean, or repair machines in motion or moving parts of machinery unless previously authorized to do so by the foreman or overseer.

7. *Clothing.*—The clothing of employees having to work around moving parts of machinery, and particularly those whose duty it is to oil up and repair machines, shall be buttoned and close fitting.

8. *Gloves and Mittens.*—Gloves or mittens shall not be worn when handling belts when in motion, or working on machinery where they are liable to be caught in moving machinery.

9. *Handling Belts.*—No belt larger than three inches (3") wide (except with the consent of the Board) shall be connected by hand unless it be slow-running. Slow-running belts shall be defined as those running less than one hundred and twenty feet (120') per minute.

10. *When a Belt is not in Use* it shall be hung up in a place where it cannot be caught by pulleys or shafts.

11. *Horizontal Shafting.*—Any portion of a horizontal shaft which is six feet six inches (6' 6") or less from the floor or working-platform, or which may be approached while in motion, shall be guarded on the sides and bottom or protected by a standard railing ensuring at least fifteen inches (15") and not more than twenty inches (20") horizontal clearance from the nearest moving part.

12. *Vertical Shafting.*—(Except with the consent of the Board.) Vertical or inclining transmission shafting shall be encased to a height of six feet (6') from the floor.

13. *When a Shaft, pulley, or belt* passes through the floor (or any guard is placed around floor opening) a six-inch (6") solid section or toe-board shall be placed at the bottom of the guard, and a heavy top rail not less than three and a half feet (3½') high.

14. *Projecting Shaft Ends or Keys.*—All projecting shaft ends or keys shall be cut off or properly protected with stationary casing.

15. *Fly-wheels.*—All sections of fly-wheels with spokes which are six feet six inches (6' 6") or less from the floor and which are exposed to contact shall be guarded. Fly-wheels which run in pits shall be provided with handrail and toe-board around the pit.

Exception.—Where an engine is isolated in a room used exclusively as an engine-room, the fly-wheel of such engine may be guarded with a railing. This railing shall be constructed with two rails, the bottom of which shall not be less than eighteen inches (18") from the floor. Whenever main or auxiliary engines are located in a basement, they shall be completely railed or fenced off so that no unauthorized person can gain access thereto.

16. *Couplings and Collars, Keys and Set-screws.*—Shaft-couplings and set-collars shall be of a safety type, without projecting bolts, set-screws, or other dangerous projections, or be completely guarded.

17. *Clamp-couplings* shall be guarded by a cylindrical sleeve the full length of the coupling.

18. *Jaw-clutch Couplings* shall be provided with cylindrical sleeve which at least covers the jaws.

19. *Universal and Flexible Couplings* shall be so guarded or encased as to remove all hazards.

20. *Friction-clutch Couplings* shall have their operating mechanisms, where exposed, completely guarded.

21. *Keys* exposed to contact shall be made flush or guarded.

22. *Key-seats*, where exposed to contact, shall be guarded.

23. *Set-screws* or revolving parts shall be countersunk, or covered by a guard, or a headless set-screw shall be used. No part of the set-screw shall project above the surface.

24. *The Above Guards* shall be so designed, where practicable, as not to revolve with the part guarded.

25. *Friction-drives*.—The contact faces of all friction-drives, when exposed to contact, shall be enclosed.

26. *All Frictions* with projecting bolts shall be guarded.

27. *Bearings*.—Accurate alignment of bearings is an important factor in safety and in economy of operation. Frequent inspections of bearings and hangers are desirable. They should be so equipped with oiling apparatus that there will be no occasion for the oiler to come into dangerous proximity with shafting when it is in motion.

28. *Pulleys*.—Pulleys shall be placed at a slightly greater distance from bearings or hangers or other pulleys (except tight and loose pulleys) than the width of the belt, so that in case the belt slips off the pulley it will not become wedged between the hanger and the pulley or between the two pulleys, thus pulling down the line-shafting. If it is impracticable to space pulleys farther from a hanger or another pulley than the width of the belt, the intervening space shall be guarded in such a way that it will be impossible for the belting to become wedged should it slip the pulley. This may be done by placing a spool four inches (4") larger in diameter than the pulley on the side of the pulley adjacent to a hanger or another pulley, or by use of a belt-hanger. Pulleys shall be frequently inspected for cracks which are likely to develop in the arms or rims. When a crack occurs a piece of the rim may be thrown out by centrifugal force and cause a serious accident. Testing by hammer will usually disclose any defects.

29. *Idler Pulleys or Tighteners* used to tighten belts on pulleys, if provided with counter-weights, shall have counter-weights guarded or enclosed.

30. *Belt-shifters*.—(a.) A permanent belt-shifter shall be provided for all loose pulleys, and shall be located within easy reach of the operator. The construction of belt-shifters shall be such as to make it impossible for the belt to creep back on to the tight pulley. All belt-shifters shall be equipped with a lock or some other device to prevent accidental shifting.

31. *Belts*.—All belts, ropes, or chain-driving machinery or shafting, and all secondary belts, ropes, or chains, where exposed to contact, shall be guarded. In all cases the point where the belt, rope, or chain runs on to the pulley sheave or sprocket, if within six feet six inches (6' 6") of the floor or platform, shall be guarded.

Exception.—Belts which are so small that they are not in any way a source of danger.

32. *All Horizontal Belts, Ropes, or Chains* driving machinery or shafting six feet six inches (6' 6") or less above the floor or platform, where exposed to contact, must be guarded. All overhead belts six inches (6") or more in width and over six feet six inches (6' 6") from the floor or platform shall be guarded underneath and on sides, unless so guarded that persons cannot pass under them. All chains or rope-drives over six feet six inches (6' 6") from the floor or platform shall be guarded in like manner to belts over six inches (6") in width. In all cases the guard should cover the outer faces of the two pulleys or sheaves and extend upward to such a point and be attached in such a way that, in case the belt, chain, or rope breaks, the guard will withstand the whipping force.

33. *Vertical and Inclined Belts* shall be substantially guarded as follows: If the guard be less than fifteen inches (15") from the belt, there shall be a complete enclosure of wood or metal to a height of six feet (6'), unless it is a small belt, then with the permission of the Board a small belt-guard need only be three feet six inches (3' 6") high. If the guard is placed at least fifteen inches (15") clearance from the belt, a two-rail railing at least three and one-half feet (3½') shall be required.

34. *Belt-tighteners* which control the operation of machines shall be equipped with a safety lock or stop which will prevent the application of the tightener to its belt until the lock or stop is released.

35. *Transmission Gearing*.—In this term is included all forms of spur-gears, pinions, bevel-gears,

mortise-wheels, and sprockets for chain-drives, etc. Such gearing, wherever located, shall be strongly and completely encased, or when this is impracticable shall have a band guard provided with side flanges extending inward beyond the root of the teeth. Where there is a spoke hazard the gears always shall be enclosed on exposed side.

36. *The Operation of Driven Pulleys* on line or counter-shafts which have no bearing between the pulley and the end of the shaft shall not be used unless guides be provided which will prevent the belt running off the pulley.

37. *Runways*.—If possible, overhead runways shall not be less than twenty inches (20") in width and equipped with a handrail. If runway is less than twenty inches (20") in width, then same shall have two handrails. Access to these runways shall be in all cases by means of fixed ladders or railed stairways.

38. *If a Passage or Runway* pass between the strands of a belt, a substantially covered way with railed sides or other adequate guard shall be provided.

39. *If a Passage or Runway* passes over a shaft or conveyor, a substantial covered way with sides shall be provided.

40. *Ladders*.—All movable ladders (except substantial step-ladders) shall be provided with either sharp points at the foot or wide rough surface feet or other effective means to prevent slipping. Ladders for use in oiling overhead shafting, where necessary to rest same on the shafting, shall be arranged to hook over the shafting. Ladders shall extend at least two feet (2') above top of landing.

41. *Stairways and Handrails*.—All stairways shall be equipped with handrails, and the rails shall be kept smooth and free from nails and splinters.

42. *Where the Stairway* is not built next to a wall or partition, rails shall be provided for both sides.

43. *Floor Openings* shall not be allowed without guard-rails and the toe-boards without written permission from the Board.

44. *Floor Platforms and Wharves*, etc., shall be kept in good repair and free from nails and other debris.

45. *Where* timber, lumber, slabs, rock, or refuse is dropped from mill floor to lower floor or ground, the space where it is dropped to shall have a railing so as to prevent any person from walking under said opening.

46. *Emery-wheels, Hoods, and Guards*.—Emery-wheels used for grinding purposes shall be equipped with a hood connected with an exhaust-fan or water system. A guard shall be provided as a part of the hood-construction or in addition to the hood, which shall be strong enough to withstand the shock of a bursting wheel. This guard shall be adjusted close to the wheel and extend over the top of the wheel at a point thirty degrees beyond a vertical line drawn through the centre of the wheel. The exhaust or water system is not required on emery-wheels which are in general use by all employees in common to touch up castings or tools.

47. *Arbor Ends* shall be guarded.

48. *Speed of Wheel* shall not exceed the speed guaranteed by the manufacturer or determined by the Inspector.

49. *Goggles* shall be supplied for workmen while working at emery-wheels, or the guard shall be equipped with an extension guard with steel frame and heavy glass to prevent sparks striking workmen in the eyes. Celluloid-frame goggles shall not be used.

50. *Passage-ways and Platforms*.—Whenever it is possible, thoroughfares through basements shall be avoided. If not possible to avoid this altogether, any passage-way that may have to be used as a thoroughfare shall be properly protected and lighted.

51. *Tanks*.—The supports of all elevated tanks shall be accessible for the purpose of inspection. Every tank over seven feet (7') deep containing liquids shall have a fixed ladder both inside and out. Rungs shall have a clearance of at least six inches (6").

52. *Hogs and Grinders* shall be properly guarded, so that it is impossible for knots, chips, etc., to fly out and injure workmen.

53. *When it is necessary* for workmen to pass under bearings, said bearings shall be equipped with drip cups or pans securely fastened in position, so as to prevent oil from falling on floor.

54. *Where* iron or steel scrap is broken up with drop-weight, said area shall be completely enclosed on sides eight feet (8') high, to prevent injury to workmen from flying pieces.

SCAFFOLDS.

1. *Scaffolds* in particular shall receive the most careful attention as to strength and rigidity.

2. *All Scaffolds* shall be kept in the best of repair and all broken or rotten timbers or boards removed.

3. *The Piling* of excessive weights or concentrated loads which might cause collapse of the scaffold shall at all times be avoided. Where scaffolds are over ten feet (10') above the ground or floor, they shall, where practicable, be equipped with a railing and toe-boards or skirting-boards to prevent falling material. On suspended scaffolds, where practicable, it shall be necessary to use wire rope for slings and stirrups.

4. *Floor Openings* shall not be allowed without guard-rails and toe-boards, unless by permission of Inspector.

CRANES.

15. *Overhead Sheaves*.—Where the overhead machinery consists only of sheaves, a metal grating or screen shall be placed under such sheaves and extend over the entire shaftway and give safe access to the sheaves from the floor or roof of the building. The grating or screen shall be sufficient strength to sustain a load at centre of span of not less than five hundred pounds, with a factor of safety of four. The openings in such gratings or screen shall not be wider than one inch (1").

MUNICIPAL BY-LAWS.

EAST DELTA PUMP BY-LAW, 1918.

A By-law to provide for the Purchase and Installation of a Pump, with Buildings and Accessories, etc., on the Property within the East Delta Drainage Scheme, 1912, and for borrowing on the Credit of the Municipality a Sum not exceeding \$12,500 for completing same. Provisionally adopted the 13th day of April, 1918.

WHEREAS two-thirds in number and value of the owners, as shown by the last revised assessment roll, of the property hereinafter set forth to be benefited by the said pump and works have petitioned the Council of the Corporation of the District of Delta, praying for the purchase and installation of a pump or other mechanical operation at the head of that certain slough adjoining the original flood-box in the East Delta Drainage Scheme for the purpose of assisting a further and better drainage of the lands and premises contained in said scheme, and more particularly described as follows:—

Commencing at a point on the north shore of Boundary Bay, the same being at an intersection of the west boundary of Section 29, Township 3, and the north shore of Boundary Bay; thence north to the north-west corner of the South-west Half of Section 8, Township 4; thence to the north-east corner of the South-west Half of Section 10; thence north 20 chains; thence east 40 chains; thence north 20 chains to the north-west corner of Section 11, Township 4; thence east and following the northerly boundary of Section 11 to the base of a hill; thence following the base of a hill in a southerly and easterly direction to the east boundary of the South-west Half of Section 12, Township 4; thence south to the south-west corner of the North-east Half of Section 1, Township 4; thence along the south boundary of the Semiahmo Road to the east boundary of Section 2, Township 4; thence south along the said east boundary to an intersection with the north shore of Boundary Bay; thence following the north shore of Boundary Bay to the point of commencement:

And whereas thereupon the said Council procured an examination to be made by D. J. McGugan, being a person competent for such purpose, of the said locality in which the said pump and all necessary accessories, building or buildings, rights-of-

way, approaches, or other apparatus are to be installed, and has also procured plans and estimates of the work to be made by the said D. J. McGugan, and an assessment to be made by him of the lands and roads to be benefited by such pump, buildings, etc., and stating as nearly as he can the proportion of benefit which in his opinion will be derived in consequence of the purchase and installation of such pump and all necessary accessories, building or buildings, rights-of-way, approaches, or other apparatus by every lot or portion of lot, the said assessment so made being the assessment hereinafter by this by-law enacted to be assessed and levied upon the lots or lands and portions of the same hereinafter in that behalf specially set forth and described, and the report of the said D. J. McGugan in respect thereof and of the installation of the said pump and all necessary accessories, building or buildings, rights-of-way, approaches, or other apparatus being as follows:—

“NEW WESTMINSTER, B.C., May 2nd, 1918.

“To His Worship the Reeve and Councillors of Delta:

“GENTLEMEN,—I have the honour to report to you that I have, according to your instructions made an examination of the drainage facilities of that district coming under the 1895 East Delta Dyking Scheme. I find that, to give the necessary measure of drainage on these lands, it will be necessary to install a pumping-station on the site of the flood-gate at the Big Slough which will have a capacity of 20,000 gallons per minute. The dyke, while at present giving excellent and adequate protection against the inroad of tidal waters, does not take care of the surface water, which either falls on or finds its way over these lands.

“I am enclosing an estimate of cost of such a pumping-station, also a description of the lands to be benefited, and also an assessment roll giving the annual payments, etc., for each land-owner. This said assessment roll is based upon the actual assessed value of the land.

“Yours very truly,

“D. J. MCGUGAN.

And whereas the said Council is of the opinion that the purchase and installation of said pump and all necessary accessories, building or buildings, rights-of-way, approaches, or other apparatus are desirable:

And whereas the East Delta Pump Construction By-law, 1918, was passed to purchase said pump and make temporary financial arrangements for the same:

Be it therefore enacted by the said Municipal Council of the said Corporation of the District of Delta, pursuant to the provisions of the “Municipal Act”:—

1st. That the said report, plans, and estimates be adopted, and that the said pump, with all necessary accessories, building or buildings, rights-of-way, approaches, or other apparatus, be purchased and installed and be made and constructed in accordance therewith:

2nd. That the Reeve and Clerk of said district municipality may borrow on the credit of the Corporation of the said district municipality an amount of money not exceeding the sum of \$12,500, being the funds necessary for the purchase and installation of the said pump, with all necessary accessories, building or buildings, rights-of-way, approaches, or other apparatus, and they may issue a debenture or debentures for the total sum borrowed of the Corporation to the amount so borrowed in sums of not less than \$100 each, and payable within two years from the date thereof, with interest at the rate of 7 per cent. per annum; that is to say: One-half of said principal sum shall

3rd. That for the purpose of paying the sum of \$12,500, being the amount charged against the said lands so to be benefited as aforesaid, other than the lands belonging to the municipality, and to cover interest thereon for the purpose above mentioned, at the rate of interest aforesaid, the following special rates over and above all other rates shall be assessed and levied upon the undermentioned lots, parts of lots, or other lands and premises more particularly described; and the amount of the said special rates and interest assessed as aforesaid against each lot, part of lot, or property respectively shall be divided into two equal parts, and one such part shall be assessed and levied as aforesaid in each year for two years after the final passing of this by-law during which the said debenture or debentures have to run:—

CANADA.
No. 581.
Sir,—

I have the honour to transmit to Your Royal Highness, for the information of your Ministers, a copy of a notice published in the press on the 15th June, containing information for the guidance of persons desiring to record:—

(a.) Debts (including bank balances) due to British subjects from persons residing in enemy countries:

(b.) Other property in enemy countries (including securities) belonging to British subjects.

2. The Foreign Claims Office referred to in the last paragraph of the notice has been set up at the Foreign Office for the purpose of dealing with all claims for the settlement of which no satisfactory machinery has existed hitherto, and which are foreign in the sense that they are claims by British subjects against a foreign Government or by foreign nationals against His Majesty's Government.

I have, etc.,

A. BONAR LAW.

The Governor-General,
His Royal Highness
The Duke of Connaught and of Strathearn, K.G.,
etc., etc.

BRITISH PROPERTY IN ENEMY COUNTRIES.

HOW TO RECORD CLAIMS.

WE are officially informed that it has been arranged that the Public Trustee shall keep a record of:—

(a.) Debts (including bank balances) due to British subjects from persons residing in enemy countries:

(b.) Other property in enemy countries (including securities) belonging to British subjects.

Any person desiring to record such claims or property can obtain the necessary form for that purpose (Form G in the first case and Form H in the second) from the Public Trustee. Applications should be made to the Public Trustee (Trading with the Enemy Department), No. 2 Clement's Inn, Strand, W.C.

It must be clearly understood that the action of the Public Trustee will be confined to entering upon the record claims of which particulars are supplied to him, and that in no way commits His Majesty's Government either to responsibility for the correctness of the claim entered or to taking any action on the conclusion of hostilities or otherwise for the recovery of the debts or property in question.

The Public Trustee will record claims against enemy Governments in respect of public securities of those Governments held by the claimants, but other claims against enemy Governments (e.g., in respect of goods or property requisitioned or sequestered) as distinct from claims against enemy subjects should be notified to the Director of the Foreign Claims Office, Foreign Office, S.W.

ORDERS IN COUNCIL.

AT THE EXECUTIVE COUNCIL CHAMBER.

VICTORIA, 7th February, 1917.

PRESENT:

THE HONOURABLE THE ADMINISTRATOR IN COUNCIL.

ON the recommendation of the Honourable the Attorney-General and under the provisions of the "Court Rules of Practice Act" and all other powers thereunto enabling, the Honourable the Administrator of British Columbia, by and with the advice and consent of his Executive Council, doth order as follows:—

1. During the war no probate of a will or letters of administration of the estate of any German, Austro-Hungarian, Turkish, or Bulgarian subject, wherever resident, shall be granted in respect of any assets in this country without the express licence of the Crown acting through the Minister of Finance.

2. In all cases where probate or letters of administration are granted during the war to any person entitled thereto, the grant shall be made upon the condition that no portion of the assets shall be distributed or paid during the war to any beneficiary or creditor who is a German, Austro-Hungarian, Turkish, or Bulgarian subject, wherever resident, or to any one on his behalf, or to or on behalf of any person resident in Germany, Austro-Hungary, Turkey, or Bulgaria, of whatever nationality, without the express licence of the Crown acting through the Minister of Finance; and if any distribution or payment is made contrary to this condition the grant of probate or letters of administration will be forthwith revoked.

3. Any applicant for letters of administration or probate during the war shall furnish evidence to the satisfaction of the Judge to whom application is made that the person in respect to whose estate such probate or letters of administration are applied for was not a German, Austro-Hungarian, Turkish, or Bulgarian subject; or, failing such evidence, shall produce the licence of the Crown that such probate or letters of administration may be granted. Such applicant shall also give such information as the Registrars of the Courts may require in order to ascertain whether any of the assets would in time of peace be distributable or payable to any such subject, and if required shall make a statutory declaration as to the assets and their disposition in the event of probate or letters of administration being granted.

4. In cases deemed by him proper, the Minister of Finance may sanction the payment of moderate sums out of assets to beneficiaries or creditors who are German, Austro-Hungarian, Turkish, or Bulgarian subjects resident in Canada at the commencement of the war and during the war.

*Vice-President and General Manager.***DOMINION ORDERS IN COUNCIL.**

AT THE GOVERNMENT HOUSE AT OTTAWA.

Monday, the 22nd day of April, 1918.

PRESENT:

HIS EXCELLENCY THE GOVERNOR-GENERAL IN COUNCIL.

WHEREAS by Order in Council of the 17th March, 1917, it was provided that notwithstanding anything contained in the Regulations for the survey, administration, disposal, and management of Dominion lands within the Forty-mile Railway Belt of the Province of British Columbia as established by Order in Council of the 17th day of September, 1889, or the amendments thereto, during the remainder of the year 1917, the holders of homestead entries, who were employed as farm labourers within the Dominion of Canada, might be allowed the period of such employment as part of the required period of residence in connection

with their respective entries, subject to certain conditions therein laid down:

And whereas the Minister of the Interior states that in his opinion it is desirable to make similar provision for the year 1918:

Therefore His Excellency the Governor-General in Council, on the recommendation of the Minister of the Interior, under and by virtue of the authority conferred upon the Governor in Council by "The War Measures Act of 1914," is pleased to further amend the above Regulations and the same are hereby further amended as follows:—

1. Notwithstanding anything contained in the said Regulations, or the amendments thereto, during the remainder of the year 1918, the holders of homestead entries, who are employed as farm labourers within the Dominion of Canada, may be allowed the period of such employment as past of the required period of residence in connection with their respective entries, subject to the following conditions:—

(a.) The time of employment to be counted as residence duties must be subsequent to the actual date of entry in each case. No settler claiming the benefit of the provisions of the Order in Council of the 17th March, 1917, and of these Regulations shall be given credit in connection with his entry, by reason of his having been engaged in farming operations during the years 1917 and 1918, for more than two terms of residence of six months each, and any settler who is thus allowed the maximum credit in connection with his entry shall be required to show, before his residence duties shall be deemed complete, that he has performed six months' actual residence either on the land held by him under entry, or in the vicinity thereof, in accordance with the provisions of the Regulations:

(b.) The provisions of this Order shall not apply to unperfected proxy entries, nor to any case in which the entrant is engaged in any other employment than actual farm labour:

(c.) As soon as possible after the entrant commenced work it shall be his duty to forward to the Agent of Dominion Lands for the district in which his land is situated, sworn evidence satisfactory to the Minister of the Interior, giving particulars of the land held under entry, the nature of the work performed, where performed, date of commencement, and probable duration:

(d.) Within thirty days after the term of employment has expired, and in any case not later than the 1st of February, 1919, the entrant shall file with the local Agent for the district sworn evidence satisfactory to the Minister of the Interior of the time actually spent on farm work:

(e.) In the event of the cancellation of any entry for default in the performance of the conditions thereof, nothing in this Order in Council shall be held to confer any right or claim upon the former holder of any such entry who, being engaged in farm labour in Canada as aforesaid, has failed, prior to the date of cancellation, to notify the Agents of Dominion Lands for the district of the fact of his being so engaged:

(f.) The entry of any person complying with the foregoing provisions shall not, during the period of his employment on farm labour, be liable to cancellation by reason of his failure to perform the cultivation required in connection with his entry:

(g.) Notwithstanding anything to the contrary in the said Regulations, or any amendments thereto, the cultivation required to earn a patent where the entrant obtains the benefit of this regulation, may be performed in two years instead of three. Settlers claiming the benefit of the similar provision with respect to cultivation, under the Order in Council of the 17th March, 1917, referred to, shall not be entitled to further reduction of the cultivation requirements in connection with their entries by reason of the provisions of this paragraph:

(h.) In any case in which the Minister of the Interior is not satisfied as the *bona fides* of the case, he is authorized to withhold the benefits provided for by the foregoing.

MUNICIPAL BY-LAWS.

EAST DELTA PUMP BY-LAW, 1918.

A By-law to provide for the Purchase and Installation of a Pump, with Buildings and Accessories, etc., on the Property within the East Delta Drainage Scheme, 1912, and for borrowing on the Credit of the Municipality a Sum not exceeding \$12,500 for completing same. Provisionally adopted the 13th day of April, 1918.

WHEREAS two-thirds in number and value of the owners, as shown by the last revised assessment roll, of the property hereinafter set forth to be benefited by the said pump and works have petitioned the Council of the Corporation of the District of Delta, praying for the purchase and installation of a pump or other mechanical operation at the head of that certain slough adjoining the original flood-box in the East Delta Drainage Scheme for the purpose of assisting a further and better drainage of the lands and premises contained in said scheme, and more particularly described as follows:—

Commencing at a point on the north shore of Boundary Bay, the same being at an intersection of the west boundary of Section 29, Township 3, and the north shore of Boundary Bay; thence north to the north-west corner of the South-west Half of Section 8, Township 4; thence to the north-east corner of the South-west Half of Section 10; thence north 20 chains; thence east 40 chains; thence north 20 chains to the north-west corner of Section 11, Township 4; thence east and following the northerly boundary of Section 11 to the base of a hill; thence following the base of a hill in a southerly and easterly direction to the east boundary of the South-west Half of Section 12, Township 4; thence south to the south-west corner of the North-east Half of Section 1, Township 4; thence along the south boundary of the Semiahmo Road to the east boundary of Section 2, Township 4; thence south along the said east boundary to an intersection with the north shore of Boundary Bay; thence following the north shore of Boundary Bay to the point of commencement:

And whereas thereupon the said Council procured an examination to be made by D. J. McGugan, being a person competent for such purpose, of the said locality in which the said pump and all neces-

sary accessories, building or buildings, rights-of-way, approaches, or other apparatus are to be installed, and has also procured plans and estimates of the work to be made by the said D. J. McGugan, and an assessment to be made by him of the lands and roads to be benefited by such pump, buildings, etc., and stating as nearly as he can the proportion of benefit which in his opinion will be derived in consequence of the purchase and installation of such pump and all necessary accessories, building or buildings, rights-of-way, approaches, or other apparatus by every lot or portion of lot, the said assessment so made being the assessment hereinafter by this by-law enacted to be assessed and levied upon the lots or lands and portions of the same hereinafter in that behalf specially set forth and described, and the report of the said D. J. McGugan in respect thereof and of the installation of the said pump and all necessary accessories, building or buildings, rights-of-way, approaches, or other apparatus being as follows:—

“NEW WESTMINSTER, B.C., May 2nd, 1918.

“To His Worship the Reeve and Councillors of Delta:

“GENTLEMEN,—I have the honour to report to you that I have, according to your instructions made an examination of the drainage facilities of that district coming under the 1895 East Delta Dyking Scheme. I find that, to give the necessary measure of drainage on these lands, it will be necessary to install a pumping-station on the site of the flood-gate at the Big Slough which will have a capacity of 20,000 gallons per minute. The dyke, while at present giving excellent and adequate protection against the inroad of tidal waters, does not take care of the surface water, which either falls on or finds its way over these lands.

“I am enclosing an estimate of cost of such a pumping-station, also a description of the lands to be benefited, and also an assessment roll giving the annual payments, etc., for each land-owner. This said assessment roll is based upon the actual assessed value of the land.

“Yours very truly,

“D. J. MCGUGAN.

And whereas the said Council is of the opinion that the purchase and installation of said pump and all necessary accessories, building or buildings, rights-of-way, approaches, or other apparatus are desirable:

And whereas the East Delta Pump Construction By-law, 1918, was passed to purchase said pump and make temporary financial arrangements for the same:

Be it therefore enacted by the said Municipal Council of the said Corporation of the District of Delta, pursuant to the provisions of the “Municipal Act”:—

1st. That the said report, plans, and estimates be adopted, and that the said pump, with all necessary accessories, building or buildings, rights-of-way, approaches, or other apparatus, be purchased and installed and be made and constructed in accordance therewith:

2nd. That the Reeve and Clerk of said district municipality may borrow on the credit of the Corporation of the said district municipality an amount of money not exceeding the sum of \$12,500, being the funds necessary for the purchase and installation of the said pump, with all necessary accessories, building or buildings, rights-of-way, approaches, or other apparatus, and they may issue a debenture or debentures for the total sum borrowed of the Corporation to the amount so borrowed in sums of not less than \$100 each, and payable within two years from the date thereof, with interest at the rate of 7 per cent. per annum; that is to say: One-half of said principal sum shall

3rd. That for the purpose of paying the sum of \$12,500, being the amount charged against the said lands so to be benefited as aforesaid, other than the lands belonging to the municipality, and to cover interest thereon for the purpose above mentioned, at the rate of interest aforesaid, the following special rates over and above all other rates shall be assessed and levied upon the undermentioned lots, parts of lots, or other lands and premises more particularly described; and the amount of the said special rates and interest assessed as aforesaid against each lot, part of lot, or property respectively shall be divided into two equal parts, and one such part shall be assessed and levied as aforesaid in each year for two years after the final passing of this by-law during which the said debenture or debentures have to run:—

COMPENSATION BOARD.

NOTICE.

WORKMEN'S COMPENSATION BOARD.

PURSUANT to section 51 of the "Workmen's Compensation Act," the Workmen's Compensation Board has adopted the following Safety Rules and Regulations, the same to take effect from the 16th of June, 1918:

GENERAL.

Transmission Machinery, Shafting, Couplings, Pulleys, Gearing, Belting, and Conveyors.

1. *Emergency Stopping Device.*—(Except with the consent of the Board.) Wherever there is power-driven machinery, a device shall be provided at a convenient point or points, in each department or work-room, whereby either the entire power-supply in that department or room may be cut off as a whole or the one or more lines of shafting used in driving counter-shafting or directly driving machines may be cut off independently.

2. *A Safety Placard* shall be prominently displayed, calling attention to the stopping device and method of operating same.

3. *All Safeguards* shall be well constructed and of the best material for the purpose and maintained in place.

4. *All Manufacturing Plants* shall have signal-cords connected with the bell or whistle, and located in convenient places on each floor.

5. *All Workmen* in a plant shall be taught how to make use of the system of signal by which all the machines can be stopped in case of accident.

6. *Oiling, Cleaning, and Repairs.*—Workmen shall not undertake to oil, inspect, clean, or repair machines in motion or moving parts of machinery unless previously authorized to do so by the foreman or overseer.

7. *Clothing.*—The clothing of employees having to work around moving parts of machinery, and particularly those whose duty it is to oil up and repair machines, shall be buttoned and close fitting.

8. *Gloves and Mittens.*—Gloves or mittens shall not be worn when handling belts when in motion, or working on machinery where they are liable to be caught in moving machinery.

9. *Handling Belts.*—No belt larger than three inches (3") wide (except with the consent of the Board) shall be connected by hand unless it be slow-running. Slow-running belts shall be defined as those running less than one hundred and twenty feet (120') per minute.

10. *When a Belt is not in Use* it shall be hung up in a place where it cannot be caught by pulleys or shafts.

11. *Horizontal Shafting.*—Any portion of a horizontal shaft which is six feet six inches (6' 6") or less from the floor or working-platform, or which may be approached while in motion, shall be guarded on the sides and bottom or protected by a standard railing ensuring at least fifteen inches (15") and not more than twenty inches (20") horizontal clearance from the nearest moving part.

12. *Vertical Shafting.*—(Except with the consent of the Board.) Vertical or inclining transmission shafting shall be encased to a height of six feet (6') from the floor.

13. *When a Shaft, pulley, or belt* passes through the floor (or any guard is placed around floor opening) a six-inch (6") solid section or toe-board shall be placed at the bottom of the guard, and a heavy top rail not less than three and a half feet (3½') high.

14. *Projecting Shaft Ends or Keys.*—All projecting shaft ends or keys shall be cut off or properly protected with stationary casing.

15. *Fly-wheels.*—All sections of fly-wheels with spokes which are six feet six inches (6' 6") or less from the floor and which are exposed to contact shall be guarded. Fly-wheels which run in pits shall be provided with handrail and toe-board around the pit.

Exception.—Where an engine is isolated in a room used exclusively as an engine-room, the fly-wheel of such engine may be guarded with a rail-

ing. This railing shall be constructed with two rails, the bottom of which shall not be less than eighteen inches (18") from the floor. Whenever main or auxiliary engines are located in a basement, they shall be completely railed or fenced off so that no unauthorized person can gain access thereto.

16. *Couplings and Collars, Keys and Set-screws.*—Shaft-couplings and set-collars shall be of a safety type, without projecting bolts, set-screws, or other dangerous projections, or be completely guarded.

17. *Clamp-couplings* shall be guarded by a cylindrical sleeve the full length of the coupling.

18. *Jaw-clutch Couplings* shall be provided with cylindrical sleeve which at least covers the jaws.

19. *Universal and Flexible Couplings* shall be so guarded or encased as to remove all hazards.

20. *Friction-clutch Couplings* shall have their operating mechanisms, where exposed, completely guarded.

21. *Keys* exposed to contact shall be made flush or guarded.

22. *Key-scots*, where exposed to contact, shall be guarded.

23. *Set-screws* or revolving parts shall be countersunk, or covered by a guard, or a headless set-screw shall be used. No part of the set-screw shall project above the surface.

24. *The Abuse Guards* shall be so designed, where practicable, as not to revolve with the part guarded.

25. *Friction-drives.*—The contact faces of all friction-drives, when exposed to contact, shall be enclosed.

26. *All Frictions* with projecting bolts shall be guarded.

27. *Bearings.*—Accurate alignment of bearings is an important factor in safety and in economy of operation. Frequent inspections of bearings and hangers are desirable. They should be so equipped with oiling apparatus that there will be no occasion for the oiler to come into dangerous proximity with shafting when it is in motion.

28. *Pulleys.*—Pulleys shall be placed at a slightly greater distance from bearings or hangers or other pulleys (except tight and loose pulleys) than the width of the belt, so that in case the belt slips off the pulley it will not become wedged between the hanger and the pulley or between the two pulleys, thus pulling down the line-shafting. If it is impracticable to space pulleys farther from a hanger or another pulley than the width of the belt, the intervening space shall be guarded in such a way that it will be impossible for the belting to become wedged should it slip the pulley. This may be done by placing a spool four inches (4") larger in diameter than the pulley on the side of the pulley adjacent to a hanger or another pulley, or by use of a belt-hanger. Pulleys shall be frequently inspected for cracks which are likely to develop in the arms or rims. When a crack occurs a piece of the rim may be thrown out by centrifugal force and cause a serious accident. Testing by hammer will usually disclose any defects.

29. *Idler Pulleys or Tighteners* used to tighten belts on pulleys, if provided with counter-weights, shall have counter-weights guarded or enclosed.

30. *Belt-shifters.*—(a.) A permanent belt-shifter shall be provided for all loose pulleys, and shall be located within easy reach of the operator. The construction of belt-shifters shall be such as to make it impossible for the belt to creep back on to the tight pulley. All belt-shifters shall be equipped with a lock or some other device to prevent accidental shifting.

31. *Belts.*—All belts, ropes, or chain-driving machinery or shafting, and all secondary belts, ropes, or chains, where exposed to contact, shall be guarded. In all cases the point where the belt, rope, or chain runs on to the pulley sheave or sprocket, if within six feet six inches (6' 6") of the floor or platform, shall be guarded.

Exception.—Belts which are so small that they are not in any way a source of danger.

32. *All Horizontal Belts, Ropes, or Chains* driving machinery or shafting six feet six inches (6' 6") or less above the floor or platform, where exposed to contact, must be guarded. All overhead

belts six inches (6") or more in width and over six feet six inches (6' 6") from the floor or platform shall be guarded underneath and on sides, unless so guarded that persons cannot pass under them. All chains or rope-drives over six feet six inches (6' 6") from the floor or platform shall be guarded in like manner to belts over six inches (6") in width. In all cases the guard should cover the outer faces of the two pulleys or sheaves and extend upward to such a point and be attached in such a way that, in case the belt, chain, or rope breaks, the guard will withstand the whipping force.

33. *Vertical and Inclined Belts* shall be substantially guarded as follows: If the guard be less than fifteen inches (15") from the belt, there shall be a complete enclosure of wood or metal to a height of six feet (6'), unless it is a small belt, then with the permission of the Board a small belt-guard need only be three feet six inches (3' 6") high. If the guard is placed at least fifteen inches (15") clearance from the belt, a two-rail railing at least three and one-half feet (3½') shall be required.

34. *Belt-tighteners* which control the operation of machines shall be equipped with a safety lock or stop which will prevent the application of the tightener to its belt until the lock or stop is released.

35. *Transmission Gearing*.—In this term is included all forms of spur-gears, pinions, bevel-gears, mortise-wheels, and sprockets for chain-drives, etc. Such gearing, wherever located, shall be strongly and completely encased, or when this is impracticable shall have a band guard provided with side flanges extending inward beyond the root of the teeth. Where there is a spoke hazard the gears always shall be enclosed on exposed side.

36. *The Operation of Driven Pulleys* on line or counter-shafts which have no bearing between the pulley and the end of the shaft shall not be used unless guides be provided which will prevent the belt running off the pulley.

37. *Runways*.—If possible, overhead runways shall not be less than twenty inches (20") in width and equipped with a handrail. If runway is less than twenty inches (20") in width, then same shall have two handrails. Access to these runways shall be in all cases by means of fixed ladders or railed stairways.

38. *If a Passage or Runway* pass between the strands of a belt, a substantially covered way with railed sides or other adequate guard shall be provided.

39. *If a Passage or Runway* passes over a shaft or conveyor, a substantial covered way with sides shall be provided.

40. *Ladders*.—All movable ladders (except substantial step-ladders) shall be provided with either sharp points at the foot or wide rough surface feet or other effective means to prevent slipping. Ladders for use in oiling overhead shafting, where necessary to rest same on the shafting, shall be arranged to hook over the shafting. Ladders shall extend at least two feet (2') above top of landing.

41. *Stairways and Handrails*.—All stairways shall be equipped with handrails, and the rails shall be kept smooth and free from nails and splinters.

42. *Where the Stairway* is not built next to a wall or partition, rails shall be provided for both sides.

43. *Floor Openings* shall not be allowed without guard-rails and the toe-boards without written permission from the Board.

44. *Floor Platforms and Wharves*, etc., shall be kept in good repair and free from nails and other debris.

45. *Where timber, lumber, slabs, rock, or refuse* is dropped from mill floor to lower floor or ground, the space where it is dropped to shall have a railing so as to prevent any person from walking under said opening.

46. *Emery-wheels, Hoods, and Guards*.—Emery-wheels used for grinding purposes shall be equipped with a hood connected with an exhaust-fan or water system. A guard shall be provided as a part of the hood-construction or in addition to the

hood, which shall be strong enough to withstand the shock of a bursting wheel. This guard shall be adjusted close to the wheel and extend over the top of the wheel at a point thirty degrees beyond a vertical line drawn through the centre of the wheel. The exhaust or water system is not required on emery-wheels which are in general use by all employees in common to touch up castings or tools.

47. *Arbor Ends* shall be guarded.

48. *Speed of Wheel* shall not exceed the speed guaranteed by the manufacturer or determined by the Inspector.

49. *Goggles* shall be supplied for workmen while working at emery-wheels, or the guard shall be equipped with an extension guard with steel frame and heavy glass to prevent sparks striking workmen in the eyes. Celluloid-frame goggles shall not be used.

50. *Passage-ways and Platforms*.—Whenever it is possible, thoroughfares through basements shall be avoided. If not possible to avoid this altogether, any passage-way that may have to be used as a thoroughfare shall be properly protected and lighted.

51. *Tanks*.—The supports of all elevated tanks shall be accessible for the purpose of inspection. Every tank over seven feet (7') deep containing liquids shall have a fixed ladder both inside and out. Rungs shall have a clearance of at least six inches (6").

52. *Hogs and Grinders* shall be properly guarded, so that it is impossible for knots, chips, etc., to fly out and injure workmen.

53. *When it is necessary* for workmen to pass under bearings, said bearings shall be equipped with drip cups or pans securely fastened in position, so as to prevent oil from falling on floor.

54. *Where iron or steel scrap* is broken up with drop-weight, said area shall be completely enclosed on sides eight feet (8') high, to prevent injury to workmen from flying pieces.

SCAFFOLDS.

1. *Scaffolds* in particular shall receive the most careful attention as to strength and rigidity.

2. *All Scaffolds* shall be kept in the best of repair and all broken or rotten timbers or boards removed.

3. *The Piling* of excessive weights or concentrated loads which might cause collapse of the scaffold shall at all times be avoided. Where scaffolds are over ten feet (10') above the ground or floor, they shall, where practicable, be equipped with a railing and toe-boards or skirting-boards to prevent falling material. On suspended scaffolds, where practicable, it shall be necessary to use wire rope for slings and stirrups.

4. *Floor Openings* shall not be allowed without guard-rails and toe-boards, unless by permission of Inspector.

CRANES.

Safety Standards for Cranes.

Factor of Safety for all Parts other than Gears, and complete hoist mechanism, 5.

Factor of Safety for brakes, 1.5.

Floorman to warn people out of the way.

Floorman or Hoistman to be provided with megaphone or gong.

SAWMILLS.

1. *Log-hauls*.—(a.) For chain-hauls the return strand of the chain in the basement shall be so supported over passage-ways that in the event of its breaking it cannot fall on any one beneath.

(b.) Unless clearly impracticable, every log-haul shall have at least one runway of sufficient width to enable a person to stand clear of logs in the chute.
